Greetings from the Habitat family

Dear Parents

The United Arab Emirates is making strong strides to attain a prosperous and sustainable future. It is important to realize that it can only be attained with the combined effort of all the entities in the community. With the dedicated effort of various individuals, we can face the environmental challenges and work together for the betterment of the society. **As the President, H.H Sheikh Khalifa Bin Zayed Al Nahyan declared the year 2018 as the "Year of Zayed", we should honor the founding Father's memory and ensure that UAE moves forward as he envisioned it. Emirates environment Group** therefore, is dedicated to uphold his vision for the environment and is once again rolling out the annual project **"One Root, One Communi-Tree" (OROC)** to mobilize the community and enable the growth of green urban space through planting of indigenous trees associated with this project.

Due to the popularity and great success of the project over the years, EEG has decided to roll out the project in two phases from this year onward.

In Phase 1 of the project you may choose to collect and deposit any or all of the mentioned recyclable materials detailed in the specified time period of **two weeks** to qualify.

Our School is participating in this great project along with EEG. All the students have to collect the **plastic, paper (newspaper, books, and cardboards) and aluminum cans** and deposit it in the designated area in the school premise. Those participants who are committed towards achieving the set targets within the time period this year, will be eligible for a Certificate of Participation and also will be provided an opportunity to plant a Tree sapling under their name in one of the public areas of the U.A.E on 18th December 2018.

I look forward to your active participation and your positive response at the earliest.

With regards

Principal
